On account of the restrictions of the Japanese Beetle Quarantine we are only offering evergreens for delivery within the Quarantine Zone.

Evergreens with ball of earth may be delivered to your customers but may not be planted in your nursery unless you are located in Class 3.

DUTCH GRANULATED PEAT

Finest material for propagating purposes or for mixing with soil to loosen it up and add humus. Especially is this necessary where ericaceous plants are propagated. We are handling only the very best quality. All brands are not alike in quality. Some brands appear to be cheaper, but there is a great difference in quantity packed in bale. Most cheap brands weigh from 132 to 176 lbs. per bale. Our bales average 210 lbs. to the bale. Therefore in our bales you get a greater quantity of material.

1 to 9 bales at \$3.00 per bale; 10 bales and up \$2.90 per bale. 25 bales and up \$2.80 per bale. F. O. B. Dresher.
